

Tobacco-Free School Policy Scavenger Hunt

Comprehensive, all-inclusive tobacco-free policies are the gold standard for schools. But how can you tell if your school's tobacco policy is comprehensive? Find your school's tobacco policy in your school's handbook. (If it's not there, ask a school administrator for a copy.) Read through the policy and hunt for the things in the checklist below.

If you can check off everything on this list, then it's time to plan a **TRU Storm** to thank your school for having a comprehensive tobacco-free policy! If there are still a few things that need to be checked off, then it's time to "School Your Community" and meet with your school administrators to chat about what's missing. Ask your TRU Advisor for the **Sample Tobacco-Free School Policy** to share as an example.

How did you find your school's tobacco policy?
